

The following guide will show you how to:

- **Step 1** - Uninstall the inCompass Application
- **Step 2** - Remove the inCompass App VPN

Note: Settings menu's may vary depending on device model being used.

Step 1 – Uninstall the inCompass Application

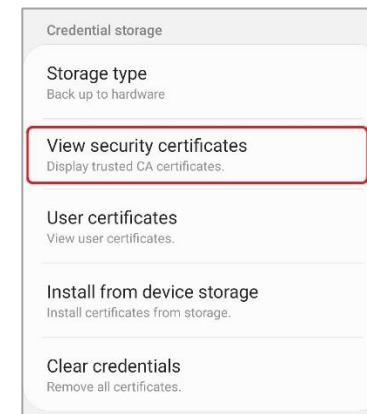

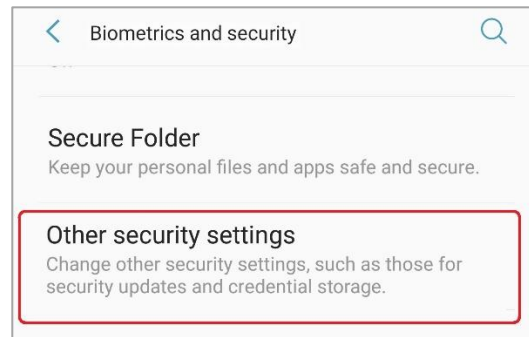

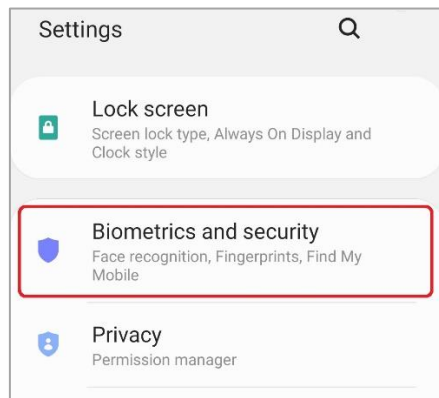

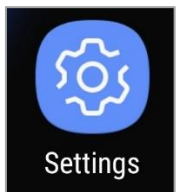

Open the '**Settings**' App on your tablet.

Open '**Apps**' or '**Applications**'

Find and tap '**inCompass**'

Tap '**Uninstall**' to remove the inCompass App

Step 2 – Removing the inCompass App VPN

Open your 'Settings' App

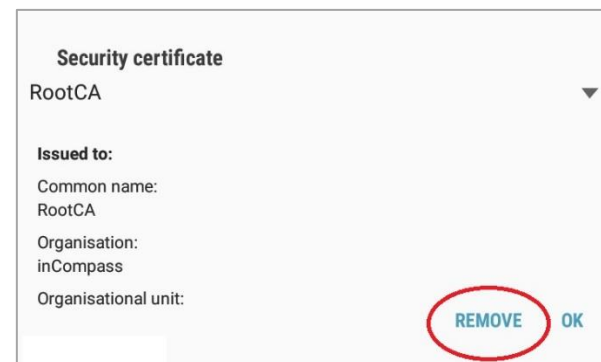

Open 'Lock Screen and Security' / 'Security' / 'Biometrics and security'

Tap 'Other security settings'

Tap 'View Security Certificates' / 'Trusted Credentials'

Note: Icon may vary depending on device model

Note: This may not be necessary on some device models

- 1 - Tap the 'User' tab
- 2 - Tap all 'inCompass'

Tap 'Remove' to remove the certificate

The inCompass App and VPN is now removed from your Android Tablet and will now longer be collecting or sending any data.
