inCompass

- The instructions listed on this document may vary depending on device model.
- Please be mindful that the previous app named 'MediaCell+' has been rebranded to the new & latest 'Ipsos MediaCell+' app. Please ensure you uninstall the appropriate version you have installed on your device.

Step #2

Now, find and tap on '<u>lpsos MediaCell+</u>' / '<u>MediaCell+</u>'

Find and tap on 'Uninstall'

Uninstall Guide for Ipsos MediaCell+ for Android

Step #3

Delete the VPN Certificate

If you set up a lockscreen password manually to install our VPN, this will now be reverted once our certificate is deleted.

- Please now open 'Settings' once again.
- Find and open '<u>Biometrics and security</u>' or '<u>Settings</u>' or '<u>Lock screen &</u> <u>Security</u>'.
- Some devices may need to tap 'Other security settings' or 'More Settings'

Step #4

- Find and tap '<u>View security</u> <u>certificates'</u> or '<u>Trusted credentials'</u> or '<u>Encryption and Credentials'</u>
- Tap the '<u>User</u>' tab to find the appropriate certificate.

Storage type Back up to hardware

Credential storage

View security certificates Display trusted CA certificates.

Step #5

Remove VPN Certificate

Tap on '**Ipsos**' (or if present, '**Ipsos MediaCell+**' / '**MediaCell+**') •

Please now scroll to the bo

Tap 'Remove' •

> lpsos RootCA

	Security certificate
	RootCA
emove'	
	Issued to:

COLCA	Issued on:
	24 May 2022
	Expires on:
SYSTEM USER	Remove OK

If you are using a device on Android 10, the application & VPN is now uninstalled.

If you are using a device on Android 11+, please complete the final step on the next page.

Step #6

Deleting the Saved certificate file(s)

Please skip this step if your device is <u>not</u> running on Android 11+.

• Please find and open your 'Files' / 'My Files' app.

Note: On different device models the app may be **labelled** different & or have a different **icon**.

- Find and tap 'Internal Storage'
- <u>Find</u> and <u>tap</u> once to open the folder you downloaded our .crt file into.

If you cannot remember, you can search for a file ending 'crt'.

Note: By default we always offer to save the file in the '*Download*' folder.

- <u>Select</u> by holding down the certificate file(s) (.crt file) and click on the '<u>Bin</u>' icon to delete.
- Confirm by clicking '<u>Move</u> to Bin / Recycle Bin'.

'Ipsos MediaCell+' is now uninstalled completely

No further data will be collected and/or sent to us from your device.
